

Wireless Restaurant Reservations
Location-Based Services

SHOW NEWS

Palm™ Powered Merchant Interface Connects Businesses

Boulder, CO, Seattle, WA & Dallas, TX

GlobalDining™ will be offering Attendees of the upcoming CTIA Wireless 2003 show in New Orleans a chance to try out a fully operational, location-aware Dining Reservation Service.

Using **Nokia** and **TCS** technology and Palm™ handheld devices, GlobalDining will offer the Dining Reservation Service, known in the restaurant industry as DinaSure™, at kiosk displays in the Nokia and TCS booths.

Show Attendees will be able to browse a number of local restaurants using a variety of handheld devices, as well as request reservations at those restaurants. Confirmations and other information will be sent back to the mobile device of the Guest via SMS.

For more information, email George.Fuller@GlobalDining.com or call (303) 442-3909.

DinaSure™ Wireless Reservations made possible through the cooperative efforts of:
