Palm® i705 Handheld Users using Location Based Services to find Restaurants

Wireless Restaurant Directory is simple tool for Consumers and Restaurants

GlobalDining, the world's largest, most consulted location-based mobile restaurant directory and Restaurant Promotional Tool, today announced that the "Nearby Restaurants" feature of the GlobalDining wireless service is the most used feature of the service by a wide margin. The GlobalDining wireless application is integrated into the MyPalm™ portal, accessible via the new Palm i705 wireless handheld as part of the Palm.Net® wireless service.

"This is a terrific validation of what has been clear to us for a long time – the mass market will use Location Based Information if it is offered to them", Said J R Nardulli, of GlobalDining.

"Palm has been offering Location Aware Wireless Service since the Palm VII wireless handheld was introduced, and this puts them ahead of everyone in the industry. We're delighted to be a part of it."

"Location-based services are an important component of Palm's wireless offerings, and the GlobalDining application makes an excellent showcase," **said Kevin Hell, senior vice president of product management, Solutions Group, Palm, Inc.** " Palm i705 handheld users now have a rich source of restaurant information that's tailored to the needs of the mobile professional."

About GlobalDining Visit us at www.globaldining.com, wap.globaldining.com or contact us directly.

GlobalDining.com offers the world's largest and most comprehensive Internet directory of restaurants together with a developing Global Reservation Network. The Company has Patents pending in the US and Europe for its restaurant reservation technologies that enable wireless reservations on a global scale without the use of proprietary equipment or software at the restaurant level. GlobalDining works with **Nextel, ATT Wireless, Motorola, Nokia, Palm, Telecommunication Systems, Inc, Telespatial, Platinet Communications**, and others.

GlobalDining is a Founding Member of the L.I.S.A™ advanced Cellular Services consortium. www.getlisa.com

Palm.Net is a registered trademark and MyPalm and Palm are trademarks of Palm, Inc.
